**2005 Call for Abstracts**

The Society for Nutrition Education invites authors to submit abstracts for oral and poster presentations for **SNE 2005**. SNE continues to provide high quality educational programming for food and nutrition educators. Abstracts are welcome in any area of nutrition education, including those that incorporate the conference theme, *Leading the Way in Nutrition and Health*.

The 38th Annual Conference will provide attendees with strategies and tools for Leading the Way in the ever changing world of nutrition and health. We invite food and nutrition education professionals and students from all arenas to contribute to and participate in the Conference. The program will examine research, programs and policies in all areas of nutrition, food safety and health across the life cycle.

SNE is an international organization of nutrition education professionals who are dedicated to promoting healthful sustainable food choices and who share a vision of healthy people in healthy communities. At the 2005 meeting, we want to highlight innovative work that will help nutrition educators lead the way toward our vision of healthy people in healthy communities.
